2021 DATA

PHYSICAL (MECHANICAL) RECYCLING

Waneco®rPC

PC Water Barrel Life Cycle

Supply Chain Carbon Reduction

- Extended product life cycle
- Up to 50% carbon reduction

Idle for EPR

- Traceable and transparent
- Assured supply stability

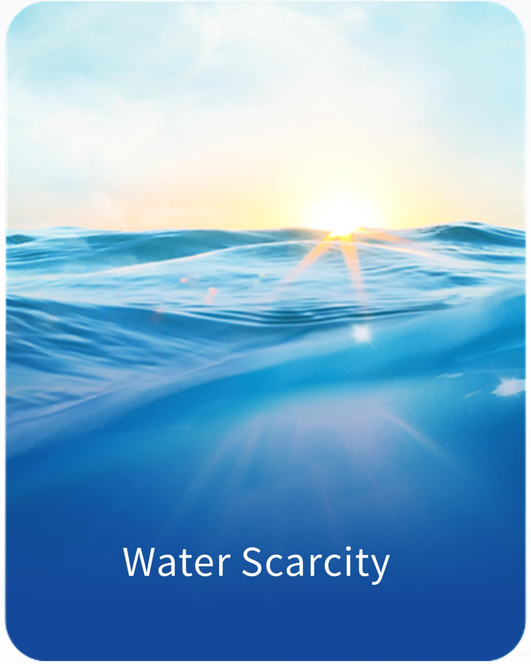

Quality Control System

- Consolidated QC system
- Approved by international institution

SUSTAINABLE DEVELOPMENT REQUIRES CONFRONTING MAJOR CHALLENGES

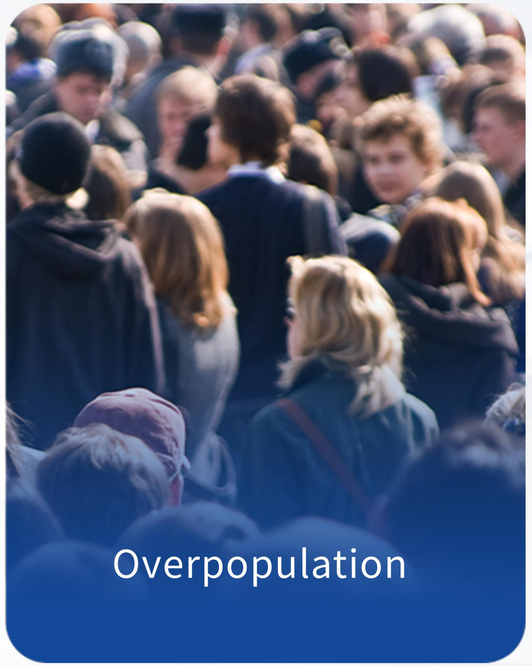

CO_2 emissions up 50% in 30 years

25% population without access to sufficient clean water by 2050

78% of plastic is wasted globally

Global population is estimated to reach 10B by 2050

MATERIAL TREND

Biodegradable | Renewable | Recyclable | Low Carbon

A good company understand what customers need

An outstanding company know why

MATERIAL SOLUTIONS FOR NON-METAL PARTS

Interior

Seat: PU
Instrumental Panes: PP/PU
Door: PP
Ambient Lighting: PC/PMMA
Interior: PP/PC/TPU/AA/PU
Leather Treatment: PA/PU

Exterior

Headlight: PP/PC/PMMA
Bumper: PP
Other Exterior: PP/PC
Sunroof: PC
Paint Protection Film: TPU

Charging Point

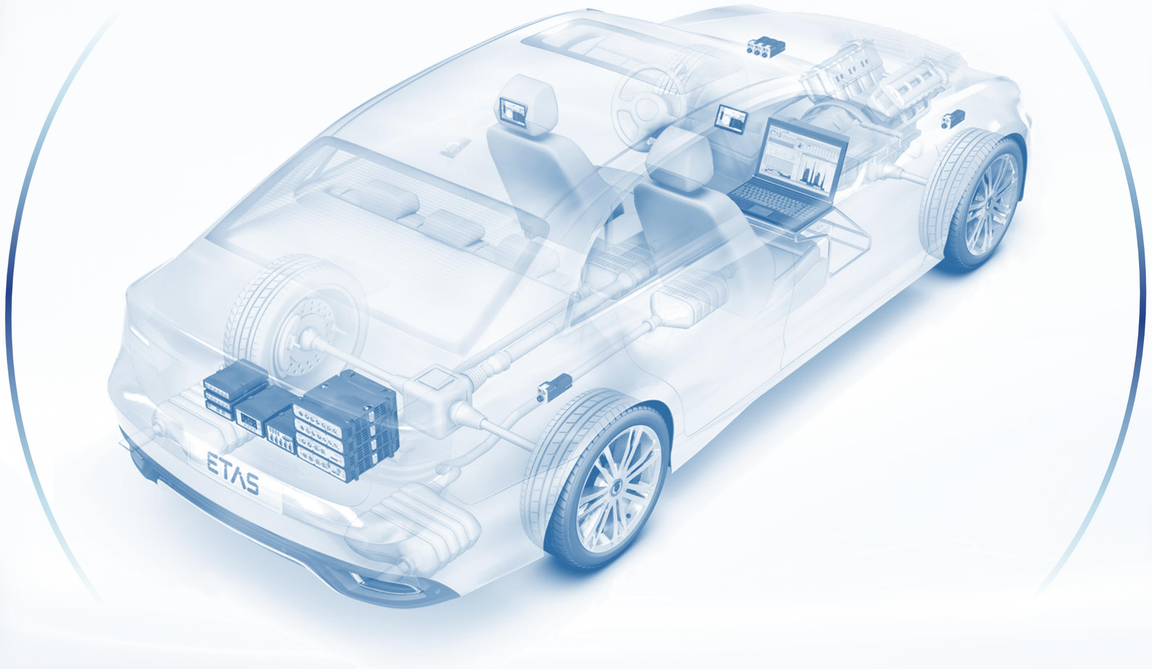

Panel: PC
Gun: PC
Shell: PC/PC
Cable: TPU

Power Battery Pack

Shell:
PU Composite/PP/PC/Epoxy
Adhesive: PU/Silicone
Cathode: Ternary/LFP

AUTOMOTIVE SOLUTIONS

- Fuel hose
- Battery package busbar
- Spraying-free high gloss interior & Exterior
- Antistatic sealing strip
- Brake hose

- Air brake
- Quick connector
- Electromagnetic shielding
- Axis coating
